Aim

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which disabled pupils can participate in the curriculum
- Improve the physical environment of the school to enable disabled pupils to take better advantage of education, benefits, facilities and the services provide
- Improve the availability of accessible information to disabled pupils

This document meets the requirements of Schedule 10 of the Equality Act 2010 and the Department for Education (DfE) guidance for schools on the Equality Act 2010.

The Equality Act 2010 defines an individual as having a disability if they have a physical or mental impairment and the impairment has a 'substantial' and 'long-term' adverse effect on their ability to carry out normal day to day activities.

Under the Special Educational Needs and Disability (SEND) Code of Practice 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-disabled pupils. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

policy. The purpose of this accessibility policy is to review accessibility for those who may have additional physical or other disabilities or needs.

- taking positive action with regard to disability embracing the spirit of the Equality Act 2010
- maintaining a culture of inclusion, support and awareness
- improving and maintaining access to the physical environment within the limitations of the physical structure of the buildings and other resources
