

WHO WE ARE

On Track Education Services operates DfE registered independent special schools providing education and support services for pupils with special educational needs.

WHAT WE AIM FOR

We aim to restore young people's self-confidence, self-esteem, self-control and self-motivation through a flexible, personalised, needs-led programme with unconditional care, nurture and support. Every day at On Track is a fresh start. We give pupils access to a wide range of academic, vocational, outdoor and physical learning experiences to sustain their interests and re-engage them in education.

SAFEGUARDING

Safeguarding is at the heart of everything we do. We are totally committed to safeguarding young people and foster a culture of safety within our school. We have a highly-trained staff team who understand the safeguarding risks that our young people face. We are aware that some young people make choices that put them at risk, and we work proactively with our pupils, their families and other agencies to help them avoid putting themselves into unsafe situations. Details of the safeguarding team can be found in our Safeguarding and Child Protection Policy. Our school policies and systems are robust and we continuously review every element of our services.

OUR SCHOOL

We offer pupils of all abilities aged 11-16 a range of educational programmes at our school. Pupils are full time and work in either small groups or one to one. Pupils at our school often have diagnosed or undiagnosed Special Educational Needs and associated barriers to learning, including SEMH, ADHD, Autism and Aspergers. Some pupils prefer smaller learning environments, some have been excluded from other settings and some have emotional barriers to accessing mainstream education.

THRIVE

The Thrive approach supports the emotional and social development of our pupils and we have licensed practitioners at the school. Our pupils are assessed to allow us to understand their readiness and ability to engage in learning. This forms the basis of a personalised learning programme for each pupil. Our pupils' emotional progress, and their emotional development as learners, are tracked termly so our work can be as tightly focused as possible.

ADMISSIONS

Pupils are referred to the school by the local authority, other agencies such as social care, and sometimes by other schools. If a pupil has an EHCP then parents can request a place at this school and a pupil can join the school at any point in the academic year. Once a pupil is referred to the school a consultation process starts, in which school will visit the pupil in their current setting or home and invite the pupil, parents or carers to visit our school.

EDUCATION
AND SUPPORT

ATTENDANCE

We encourage and reward our pupils for attending school. Full time pupils attend the school for 25 hours each week during term time. Pupils are expected to attend school unless absence is authorised, and we work closely with parents and carers to support pupils to increase their attendance where needed. Parents or Carers must inform the school if their pupil is unable to attend that day and this should be done as early as possible with an acceptable reason for the absence.

TEACHING AND SUPPORT STAFF

The school recruits experienced and well qualified teachers, tutors and support staff with the necessary qualities and skills to work well with our young people. Staff are only recruited in line with procedures from the Department for Education's Keeping Children Safe in Education, therefore all staff are DBS (enhanced) checked and fully vetted. The number of staff employed at the school and a summary of their qualifications and experience may be requested by parents, and any other interested parties, from the head teacher. Pupils will have a member of the school staff as a tutor who will get to know the pupil's key adults and circumstances so we are able to work in partnership with home to deliver the best outcomes.

LEARNING ENVIRONMENT

Our school has a variety of well equipped and resourced areas in which to engage in different activities, subjects and learn new skills in small groups or one-to-one. There are Thrive areas to which pupils can go to chill out and calm down if they want to. We use other locations to enhance the learning experience and to support our pupils to develop real-life skills. Our facilities include well-resourced classrooms, sporting facilities, play areas and workshops. Pupils are transported between activities and sites in school vehicles, and very occasionally in staff members cars if parents have given permission.

INITIAL ASSESSMENT & PERSONAL LEARNING

Pupils are assessed on entry to the school by a diagnostic suite from GL assessment including CAT4 and subject progress tests. These give the school predicted grades for the end of key stage three and GCSE expectations. This allows the school to calculate the expected learning flightpath of pupils. Through regular tracking and assessment, we are able to ensure pupils make the progress they should. Where a pupil does not make expected progress then programs of support to correct this will be devised. Pupils are also assessed in reading using Access Reading tests and pupil reading surveys; targets programmes such as Rapid Reader can be used to improve pupils reading ability. Personal Learning Plans (PLP) and

progress towards targets are measured and reviewed every term. Three quarters of our pupils in the last academic year achieved GCSE passing grades between 1-9. Half of our pupils achieved passing grades in English and Maths.

THE CURRICULUM

The school's curriculum is broad and balanced to offer all pupils the opportunity to gain the knowledge and skills they need to succeed in life. At KS3 pupils study the full range of subjects as required by the national curriculum, which allows them to make suitable decisions for their program of study at KS4. Our KS4 curriculum offers GCSE's or equivalents in a range of subjects, including English Language; English Literature; Mathematics; Science; Geography; History; Health and Social Care; and Food Preparation and Nutrition. The school has expanded the qualification offer in Art and Design to include qualifications in Fine Art, Graphic Communication, Textile Design, Photography and 3D Art. Where pupils come to us who are already studying other subjects we will look to provide these if at all possible. Some pupils also may, where required, work towards Functional Skills L1/L2 English and Mathematics.

KEEPING TRACK

Pupil Progress is monitored throughout the school year with a pupil's academic; emotional and behavioural progress being tracked to ensure they are making sustained progress in these areas. This information is used to inform parents, carers and other involved professionals of the progress being made by their pupil and allowing staff to support the pupil's individual needs.

NURTURE
AND THRIVE

BEHAVIOUR AND SUPPORT

We provide a positive approach to behaviour management which supports our pupils to develop the skills they need to manage their own behaviour. At all times, we have regard to the special educational needs of our pupils and the impact of these on their behaviour.

We manage behaviour in a way which recognises and celebrates pupils' behavioural improvements and achievements. We provide pupils with a sense of success and positive achievement which will support them in feeling more able to make positive choices and confidently manage their own behaviour. We always strive to meet the emotional and educational needs of pupils.

Our school staff build positive professional relationships with all pupils, model calm and professional behaviour and treat pupils with tolerance and respect.

Each pupil has a Pupil Risk Assessment in place to identify their positive

characteristics, strengths, interests and to identify how best to manage their individual behaviour. Strategies are proactive; de-escalation, early and active interventions are identified and plans are reviewed regularly, in light of incidents of difficult behaviour and of successes.

Our staff apply a level of flexibility in accordance with the needs of the pupil, and their own dynamic with the pupil, on any given day. We recognise that a reduction in the frequency or intensity of poor behaviour is improvement and progress for an individual pupil.

Rewards are used as springboards towards our pupil improving and taking responsibility for their behaviour and ultimately towards them being able to regulate their behaviour. As such, rewards systems, schemes and the reward itself are personalised and reviewed regularly. This school prioritises rewarding positive behaviour as opposed to sanctioning poor behaviour. Consequences for poor or inappropriate behaviour will be personalised for each student.

EMOTIONAL AND SOCIAL DEVELOPMENT

EQUALITY

This school is actively committed to the promotion of genuine equality for all and our policy sets out our commitment to promote equality of opportunity for everyone, without prejudice or discrimination.

On Track actively promotes and develops pupils' positive attitudes to the diverse society in which we all live and the curriculum enables staff and pupils together to discuss issues relating to equality, whilst also aiming to develop equal opportunities throughout the On Track community.

COMPLAINTS

The school intends to resolve complaints informally where possible, at the earliest possible stage.

There may be occasions when complainants would like to raise their concerns formally and our Complaints Policy outlines the procedure relating to handling such complaints. When responding to complaints, we will aim to:

- **Be impartial and non-adversarial**
- **Facilitate a full and fair investigation by an independent person or panel, where necessary**
- **Address all the points at issue and provide an effective and prompt response**
- **Respect complainants' desire for confidentiality**
- **Treat complainants with respect**
- **Keep complainants informed of the progress of the complaints process**
- **Consider how the complaint can feed into school improvement evaluation processes**

We try to resolve concerns or complaints by informal means wherever possible. Where this is not possible, formal procedures will be followed.

In the academic year 2024/2025 the school received a total of three formal complaints. Further information regarding this can be obtained upon request from the school.

NOTES

A vertical banner featuring a complex, low-poly geometric pattern. The design is composed of numerous triangles and polygons in various shades of purple, magenta, and pink, creating a textured, crystalline effect. The colors transition from darker purples at the top to lighter pinks towards the bottom.
