

Global Inclusion

Worldwide

W We believe our pupils, staff and parents need to understand the world in which we live – we should be in a community that respects and celebrates diversity.

O Our curriculum is designed to broaden and inform our students – awareness of countries, cultures and languages other than their own, this will prepare pupils to be excited by the prospect of meeting people from other parts of the world.

R Recognising that we are all members of the world, it is important that we develop links with schools in other countries in Europe and further afield.

L Learning through training and intervention should provide support to ensure that policies are integrated into our provision alongside other relevant policies. (subject leads)

D Diversity is celebrated in our school (wow mornings) this supports and promotes respect and understanding locally and globally.

W We live in one world, what we do affects others and what others do affects us.

L Irrespective of ability, race and gender, we should all aspire to work together to make a better world.

D Different societies, values and culture need to be understood in the ways in which we are increasingly dependent upon one another to make the world work around us.

E Engaging with international parties will help us to achieve goals – to do this we need to develop partnerships with other schools.

At OnTrack Education we endeavour to provide every child with a happy, caring, learning environment.

We aim to enhance their potential by offering opportunities to explore the values and cultures of different societies both locally and globally.

We are happy that through this knowledge it can influence and shape us all as people and help make positive changes within the economy, environment and society.

Together we will build a strong community cohesion and equip our children for life and work in a global society.

Our plans are to engage with other schools locally and globally to develop meaningful relationships and to learn and thrive from different life experiences.

Global citizenship, human rights, environment awareness and inclusion are paramount to all at On Track.
