

April Newsletter

It has been fantastic to see everyone returning from the Easter break refreshed, smiling, and ready to learn. Students have settled back into school life brilliantly, and there is already a real buzz of energy and enthusiasm around the school.

As we move into the summer term, we look ahead to an important period for our Year 11 students, with GCSE's just around the corner. We are incredibly proud of the hard work and commitment they have shown so far and we encourage them to keep up the momentum, stay positive, and make the most of every opportunity to succeed.

We're looking forward to a busy and successful term ahead!

- Trowbridge: 1 May, starting at 5:00 PM
- Salisbury: 6 May, starting at 5:00 PM
- Lackham: 10 May, from 10:00 AM to 12:00 PM

We are incredibly proud of Fernando, who recently represented our school at the Apprenticeship Open Day held at Ashton Gate Stadium. Ashton Gate hosted some of the region's top employers and training providers, offering a glimpse into the diverse career paths available through apprenticeships. Taking the initiative to explore these "real-world" opportunities is a huge step, and Fernando's participation shows great forward-thinking and ambition.

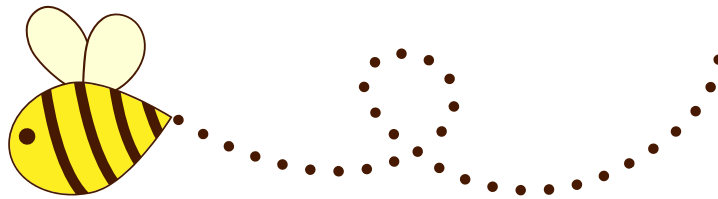

Some of our students have been working collaboratively on a project to enhance the appearance of the school. This has involved planning, budgeting, and hands-on gardening. So far, Olivia has planned, purchased and planted new hanging baskets and planters outside the reception area, which are already making a fantastic impact.

After months of hard work and dedicated Outdoor Education sessions, the Dilton Marsh Community project is truly starting to take shape, and the visual difference is remarkable. It's one thing to plan a project on paper, but seeing our students out in the elements, rolling up their sleeves and putting in the time, effort and labour is what makes this initiative so special. The site is evolving into a space the whole community can be proud of.

At Larkrise, Connor has been developing his horticulture skills, carefully transferring shoots and established plants from the polytunnel into larger pots and outdoor raised beds to support continued growth. He particularly enjoys observing how much the plants have grown and taking care of them by watering.
